

FinOps toolkit

Cost summary

The **Cost summary report** provides several summaries of your effective (amortized) and billed costs based on the FinOps Open Cost and Usage Specification (FOCUS). Amortization breaks down reservation and savings plan purchases and allocates costs to the resources that received the benefit. Effective costs will not match your invoice.

This report helps implement the [Reporting and analytics capability](#) in the FinOps Framework.

[Learn more](#)

Connect your data

Connect to data across billing accounts and subscriptions to get started.

Connect your data

[Troubleshooting tips](#)

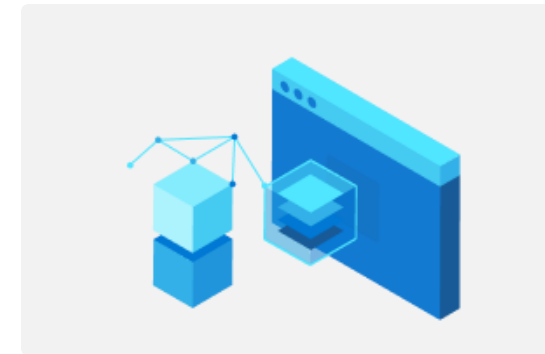

Customize your report

Keep what works, remove what you don't need, and tailor visuals and metrics to highlight what's important.
